PROFESSIONAL SUMMARY

- Backend Software Engineer with hands-on experience building reliable REST APIs using Python (Django REST Framework), NestJS, and PostgreSQL.
- Experienced in designing relational databases, building real-time features with Socket.io, and integrating third-party payment gateways.
- Strong foundation in computer science, data structures, and problem solving from competitive programming in C++.

PROFESSIONAL EXPERIENCE

Opream | *Software Engineer* | Cairo, Egypt **May 2025 - Present**

- Build and maintain backend services using Python (Django REST Framework) and NestJS on PostgreSQL in an agile team.
- **Mostaqbel Watan (Social Platform):** Built a private community platform with user roles, real-time Socket.io chat, Jitsi video calls, and Facebook Graph API integration.
- **OnWay (Ride-Hailing):** Built the ride booking workflow and integrated the Fawry payment gateway with webhooks and retry logic.
- **Kalia (Fintech & AI):** Built web scrapers to aggregate banking offers and integrated an AI agent to recommend deals based on user spending.
- **Al-Azhar Education Platform:** Developed lesson management APIs, course database schemas, and role-based permissions for students and teachers.

iSchool & WE School | *Software & Web Development Instructor* | Cairo, Egypt **Aug 2023 - Nov 2024**

- Taught programming basics, problem solving in C++, and web development (HTML, CSS, JavaScript) to students.

PROJECTS

ECPC Movement Control | *NestJS, PostgreSQL, TypeORM, Socket.io, React, JWT* GitHub

- Built a real-time web platform used by ECPC volunteers to track and assign contestant requests using Socket.io.

Budget Buddy (Freelance Project) | *React Native, SQLite* GitHub

- Built an offline mobile app in React Native to track daily expenses and budgets with fast local SQLite storage.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C++
Backend Frameworks: Django, Django REST Framework (DRF), NestJS, Node.js, Express.js, Socket.io
Databases & Storage: PostgreSQL, MongoDB, SQLite, Schema Design, Indexing, Query Optimization
DevOps & Tools: Docker, Linux/UNIX, Nginx, Gunicorn, Git, GitHub, Postman, CI/CD
Testing & Architecture: pytest, Jest, Unit & Integration Testing, RESTful API Design, Microservices
Frontend & Mobile: React, React Native, HTML5, CSS3

EDUCATION

Information Technology Institute (ITI) | *Full Stack Python* | Smart Village, Egypt **Nov 2024 - Mar 2025**

- Intensive 6-month professional Python program.
- **Graduation Project:** ITI Social Media Platform – Built a social network with Django REST APIs, PostgreSQL, and React.

Nahda University | *B.Sc. in Computer Science* | Beni-Suef, Egypt **Sep 2019 - Jul 2023**

- **Graduation Project:** Smart LMS – Built a student grade prediction model using linear regression in scikit-learn.

CERTIFICATIONS

Python Professional Track – ITI | SQL & PostgreSQL – Udemy | Node.js – Udemy | MERN Stack – Route Academy

VOLUNTEERING & ACHIEVEMENTS

- **2nd Place** – Nahda University ECPC Qualifications (2021, 2022).
- **Organizing Volunteer** – ICPC, ECPC, and ACPC Regional Programming Contests (2022 – 2024).
- **Competitive Programming** – Solved 300+ algorithmic problems in C++ on Codeforces.

LANGUAGES

Arabic (Native) | English (Fluent)
