PROFESSIONAL SUMMARY

Software Engineer owning full-stack, production-grade systems end-to-end — API design, database architecture, front-end integration — across 5 concurrent client platforms. Designed a normalized PostgreSQL schema supporting 10k+ users. Core stack: JavaScript (ES6+), Node.js, NestJS, Express.js, React, RESTful APIs, PostgreSQL, MongoDB.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), Python, C++, SQL
Backend: Node.js, NestJS, Express.js, RESTful APIs, OOP, Real-Time Apps (Socket.io), Authentication, Django (familiar)
Frontend: React, Zustand, Angular (familiar)
Databases: PostgreSQL, MongoDB, Database Design, Query Optimization, Data Modeling, ETL
Security: JWT, CORS, XSS, CSRF Mitigation, Input Validation
Tools & DevOps: Git, GitHub, Docker, Linux, Bash, CI/CD, SDLC, SAS (familiar)

PROJECTS

Saraha App | *Node.js, Express.js, MongoDB, JWT, bcryptjs, CryptoJS* [GitHub ↗](#)

- Architected a secure anonymous messaging REST API with JWT email verification, bcrypt hashing, and CryptoJS AES encryption for sensitive data.
- Built a service-layer architecture with Joi validation and an asyncHandler error handler; implemented soft-delete account freezing with automatic restoration.

Chat Application | *React, Node.js, Express.js, Socket.io, MongoDB, Cloudinary* [GitHub ↗](#) [Postman ↗](#)

- Engineered a full-stack real-time chat app (React/Zustand, Node/Express/Socket.io) with private messaging, group channels, live presence, and live message edit/delete sync.
- Hardened the API with HTTP-only cookie JWT auth and Arcjet rate limiting against spam/abuse; integrated Cloudinary for image/voice storage with full CRUD.

ITI Social Media Platform | *PostgreSQL, REST API, React* [GitHub ↗](#)

- Co-led backend architecture: designed normalized PostgreSQL schema, built RESTful APIs, and integrated with React.
- Drove the full SDLC: requirements analysis, database modeling, backend development, and cross-team integration.

PROFESSIONAL EXPERIENCE

Opream May 2025 – Present
Software Engineer Cairo, Egypt

- Own and deliver production features end-to-end across 5 client platforms — React, NestJS, PostgreSQL.
- Mostaqbel Watan Platform** — private social platform with Jitsi video meetings, Socket.io private/group chat, and Facebook Graph API auto-ingestion of group posts.
- Onway** — ride-share platform connecting riders and drivers, integrated with the Fawry payment gateway.
- Bingo** — library management system.
- Al-Azhar** — unified platform managing online and offline student lessons.
- Event Ticketing Platform** — implemented a scheduled job to auto-release stale “pending” ticket reservations back to “new” every 10 minutes, preventing inventory lock-up.

Information Technology Institute (ITI) Nov 2024 – Mar 2025
Full Stack Developer Intern (Python) Smart Village, Egypt

- Designed a normalized PostgreSQL schema supporting 10k+ users with data integrity, indexing, and query optimization.
- Delivered RESTful APIs with ETL-style data workflows and contributed to key architecture decisions.

iSchool & WE School Apr 2024 – Nov 2024
Software & Web Development Instructor (Part-time) Cairo, Egypt

- Mentored students in programming fundamentals, mobile development (Scratch), and web development (HTML, CSS, JavaScript), building their software problem-solving skills.

EDUCATION

Nahda University Sep 2019 – Jul 2023
Bachelor of Computer Science Beni-Suef, Egypt

- Graduation Project: Smart Learning Management System with a Machine Learning model.

COURSES & ACTIVITIES

Arabic (Native), English (Fluent) | ECPC/ACPC/ICPC Operations Volunteer, 2022–2024 | ECPC Contestant 2021 & 2022, 2nd place
Python Professional Track, ITI | SQL & PostgreSQL – Complete Developer’s Guide (Udemy) | Node.js – Complete Guide (Udemy) | Full Stack Web Development (MERN), Route Academy
